Superintendent's Message

Pocahontas County Schools
Marlinton, West Virginia

December 16, 1969

Dear Alumni and Friends:

The exploration of space over the past few years will open new horizons in the educational process of young people.

There has to be a united effort by business and industry, governmental agencies, and educational institutions to keep pace with the space age.

The citizens of Pocahontas County have taken the giant step in consolidating their school system by building the new high school. We still need your support even though Green Bank High School will exist no more.

I wish to take this opportunity to thank Mr. Harris, the faculty, parents, and students of Green Bank High School for their co-operation in moving the Pocahontas County School System forward in order to give future generations a more equal opportunity.

Sincerely,

Grey M. Cassell
Grey M. Cassell, Superintendent
Pocahontas County Schools

From The Principal's Desk

A static society finally becomes a dead society. The absence of change in any organization or a lack of progress. As we see the closing of this high school, after more than 50 years of operation, an opportunity for a progressive change. A larger student body will make possible a more enriched curriculum needed in order that we may better prepare our boys and girls to meet a society that is in the space age. When the school started, we were barely out of the horse and buggy days. The quality of work that was done by the more than 2,000 graduates is positively reflected in what they have done in our society since graduation. It is the schools to fail to make provisions for our boys and girls to be in a larger school where more learning is possible than is time in a small school, would be unfair to our future graduates. Thus, we are releasing sentimental feelings for the old school with a new and larger organization that will better meet the needs of teenage youth.

It has been my happy lot to see 1,184 seniors graduate from this school during the past 25 years. I observe that a large number of these graduates have made valuable contributions in different fields. They contribute their success and contributions to good teachers, forward planning of Boards of Education.

A static society finally becomes a dead society. The absence of change in any organization or lack of progress. As we see the closing of this high school, after more than 50 years of opportunity for a progressive change. A larger student body will make possible a more enriched and needed in order that we may better prepare our boys and girls to meet a society that is in the space school started, we were barely out of the horse and buggy days. The quality of work that was done of the more than 2,000 graduates is positively reflected in what they have done in our society since the schools to fail to make provisions for our boys and girls to be in a larger school where more possible than is time in a small school, would be unfair to our future graduates. Thus, we sentimental feelings for the old school with a new and larger organization that will better meet teenage youth.

It has been my happy lot to see 1,184 seniors graduate from this school during the past 25 years. I observe that a large number of these graduates have made valuable contributions in different fields. I contribute their success and contributions to good teachers, forward planning of Board of Superintendents, churches, civic organizations, and the loyal support of school patrons. While I see this high school close with a sentimental feeling, I attempt to balance this feeling of sadness with gladness - better opportunities for our youth in a larger school where more provisions can be made than has been possible in a small school.

A LOOK INTO THE FUTURE

When industry makes plans for expansion, account is taken of past experiences, present conditions, and future needs. This look into the future of necessity is not limited to a few years but generations.

Our schools and school people must of necessity plan on similar basis as is done in industry. In schools we think of people—boys and girls—future citizens—local and world wide leaders—the future of the child. Let's look for a moment for what we need to develop all the children as whole children. We know that all children are different mentally and physically. Some have physical defects or deformity. Special provision should be made for those. A second group have average capacity below average in capacity, and another group is found to be above average in capacity. They will the same school program satisfy each group? No—No—No.

What are the present facilities and what should be our plans for the future? We can say in our present facilities are not sufficient to meet the obligation we owe our youth. Now, let's enumerate our need and deserve.

Self-expression in music and dramatics is a God given talent. We have no room for provision. The auditorium is of necessity being used by a high school class thus eliminating the possibility of a music program. The auditorium is our only available space for music and only then when not occupied by the high school class. Our music program for approximately 500 pupils is operated by one teacher from grades one through eight. With the greatest effort one teacher can do little with this number of pupils and our present facilities.

Our commercial teacher has 140 students in typing and shorthand. We do not have room for bookkeeping, business law, filing, operation of modern business machines, and other commercial subjects to be offered.

Our Home Economics teacher has use of two small basement rooms for an enrollment of 120 pupils. Well-lighted, well-equipped rooms with modern furniture and properly decorated should be the norm for teaching home making. A cottage on the high school campus would enable the teacher to train in home keeping.

We have one small gymnasium for our athletic program, intramural sports, boys and girls physical education, and grade school recreation for their recess periods. Physical education is and should be required for all students. We do not have a qualified physical education teacher for girls now, nor shower facilities for girls. Physical education properly equipped for athletics and physical education is a MUST in our schools. All students are expected to develop physically as well as mentally.

We have one average size class room for our science program and no provisions for our Mathematics program. One teacher is caring for all our science program for the entire high school. Our social studies department is not offering courses because lack of room and the loss of one teacher last year.

Modern high schools have separate study halls and libraries. In our school the two occupy the same space almost entirely.

A LOOK INTO THE FUTURE

When industry makes plans for expansion, account is taken of past experiences, present conditions, and future needs. This look into the future of necessity is not limited to a few years but generations.

Our schools and school people must of necessity plan on similar basis as is done in industry. When we think of people—boys and girls—future citizens—local and world wide leaders—the full child. Let's look for a moment for what we need to develop all the children as whole children. We know that all children are different mentally and physically. Some have physical defects in shape or deformity. Special provision should be made for those. A second group have average capacity, and a third group below average in capacity, and another group is found to be above average in capacity. They will all follow the same school program satisfy each group? No—No—No.

What are the present facilities and what should be our plans for the future? We can say in one sentence that present facilities are not sufficient to meet the obligation we owe our youth. Now, let's enumerate a few of our needs and deserve.

Self-expression in music and dramatics is a God given talent. We have no room for provisions for music. The auditorium is of necessity being used by a high school class thus eliminating the possibility of a dramatic program. The auditorium is our only available space for music and only then when not occupied by the school. Our music program for approximately 500 pupils is operated by one teacher from grades one through eight. With the greatest effort one teacher can do little with this number of pupils and our present facilities. Our commercial teacher has 140 students in typing and shorthand. We do not have room for bookkeeping, business law, filing, operation of modern business machines, and other commercial courses.

present facilities are not sufficient to meet the obligation we owe our youth. Now, let's enumerate a few things they need and deserve.

Self-expression in music and dramatics is a God given talent. We have no room for provisions for dramatics. Our auditorium is of necessity being used by a high school class thus eliminating the possibility of a dramatic program. The auditorium is our only available space for music and only then when not occupied by the social studies class. Our music program for approximately 500 pupils is operated by one teacher from grades one through twelve. Even with the greatest effort one teacher can do little with this number of pupils and our present facilities.

Our commercial teacher has 140 students in typing and shorthand. We do not have room nor facilities for bookkeeping, business law, filing, operation of modern business machines, and other commercial courses that could be offered.

Our Home Economics teacher has use of two small basement rooms for an enrollment of 77 girls. Large well-lighted, well-equipped rooms with modern furniture and properly decorated should be the proper setting for teaching home making. A cottage on the high school campus would enable the teacher to train the girls in house keeping.

We have one small gymnasium for our athletic program, intramural sports, boys and girls physical education and grade school recreation for their recess periods. Physical education is and should be required for all boys and girls. We do not have a qualified physical education teacher for girls now, nor shower facilities for the girls. A large physical education properly equipped for athletics and physical education is a MUST in our school if our children are expected to develop physically as well as mentally.

We have one average size class room for our science program and no provisions for our Math department. One teacher is caring for all our science program for the entire high school. Our social studies department is limited in courses because lack of room and the loss of one teacher last year.

Modern high schools have separate study halls and libraries. In our school the two occupy the same room. It is almost impossible for good work to be done under these conditions.

We could go on at length and see things that are needed. We have tried to look into the future for a long time plan. This plan will not be realized as long as we think "we can't". When we direct our thoughts in the direction of its being a necessity then and only then will it be realized. Some will say it can't be done. Our answer to that is "it can be done when we West Virginians realize that our Youth is our most important asset".

History of Green Bank High School

EDUCATION IN GREEN BANK HIGH SCHOOL

The first school in the vicinity of Green Bank was established in 1780. It was a typical pay school of that time. In 1820 to meet the needs of a growing population, the citizens established a school on the John A. Gum property known as Cartmill Creek.

After the churches were built, the session rooms of the church became the schoolrooms. The pastor or a teacher taught in these rooms for a dollar a pupil if there were as many as ten scholars.

The first free school in Green Bank was the Academy, established in 1842. Professor Benjamin Arbogast influenced the founding of the school, served as the first instructor. The school was a part of the academy property of the county. After graduation from the academy and attending Institute for a week, a student could qualify for a teaching position by passing a test given and prepared by the County Superintendent. Green Bank District had its own Board of Education at that time, so the applicants went before the Board to qualify for the position.

After the Civil War, the Academy building was remodeled and named the "Advanced School." It was in this building when it was replaced by the present high school building. The first teacher was taught by Flynn, who later became County Superintendent.

In 1916 John W. Goodsell, President of the Board of Education, with the aid of Dr. Leland Moomau and interested citizens founded the Green Bank High and Graded Schools. The first levy was sufficient to build the school known as the high school. At first the high school and grades were both in the same part of the building. As enrollment increased, the building was extended to what is now the gymnasium. In 1926, the present gymnasium was erected.

The first school term opened in the fall of 1918 with a small enrollment. The first principal was W. P. H. Bristol, West Virginia. The first faculty was Misses Lucy Meredith, Margaret Hunt, and Lillian Moomau. The first graduate was Miss Grace Curry.

N. Phay Taylor, the second principal, was succeeded by T. P. Harwood, who served four years. In 1930 L. C. McMillon became principal and served until his death in the spring of 1945. Mr. Mack Brooks, Assistant County Superintendent, served until the end of that term. In the fall of 1945, Mr. Virgil B. Harris of Cassoway became the 7th and last principal.

Basketball was organized early in the history of the school, football was organized in 1920. Home economics started in 1921. The Future Homemakers club was organized in 1930 and is one of the oldest in the state. In 1931 a separate Vocational Agricultural building was constructed; the following year, the bus garage was erected. The lunch program was introduced about the year 1935.

In 1936 an addition to the main building was made and steam heat was installed. In 1944 the band was organized under the supervision of Miss Margaret Johnson. In 1946 a new floor was laid in the gym and a new heating system was installed. In 1946 the lunch room was remodeled to serve the 500 pupils and personnel. The installation of freezing units in 1948 enabled the Vo-Ag students to butcher and freeze the meat served at these meals. The Health Immunization program began about 25 years ago under the supervision of President L. C. McCutchen and H. Hannah.

In 1949 the seniors established the tradition of an annual tree-planting day under the supervision of Mr. Blackhurst. In 1946, Green Bank High School established another tradition, the annual homecoming. In 1947 477 graduates attended the celebration.

In recent years stationary desks in the library have been replaced by tables and chairs; new shelves have

Following the close of the Civil War, the Academy building was remodeled and renamed the "Advanced School". This school served until 1916, when it was replaced by the present high school. The last session was taught by C. E. Flynn, who later became County Superintendent.

In 1916 John W. Goodsell, President of the Board of Education, with the aid of Dr. Leland Moomau and other interested citizens founded the Green Bank High and Graded Schools. The first levy was sufficient to build the part known as the high school. At first the high school and grades were both in the same part of the building. As enrollment increased, the building was extended to what is now the gymnasium. In 1926, the present gymnasium was erected.

The first school term opened in the fall of 1918 with a small enrollment. The first principal was W. P. Haught of Bristol, West Virginia. The first faculty was Misses Lucy Meredith, Margaret Hunt, and Lillian Moomau. The first graduate was Miss Grace Curry.

N. Phay Taylor, the second principal, was succeeded by T. P. Harwood, who served four years. In 1936, Claude McMillon became principal and served until his death in the spring of 1945. Mr. Mack Brooks, Assistant County Superintendent, served until the end of that term. In the fall of 1945, Mr. Virgil B. Harris of Cassaway became the 7th and last principal.

Your Honor

To You

Minnie Parg, we, the Class of 1982, proudly dedicate the MOUNTAIN BREEZE in grateful acknowledgment of your many years of service to our school.

As commercial instructor and sponsor of the senior class, you have served Green Bank High School competently and enthusiastically. The success you have achieved in your quiet, modest manner has inspired our confidence and won our affection.

Because you gave of yourself "above and beyond the call of duty" and because you have been a sincere friend, as well as a teacher, we thank you.
